are coming due about the first of January, could not be met, called together some of their personal advisors to advise them as to what was best to be done.

"These gentlemen examined very fully into all the affairs of those companies composing the syndicate and were furnished with very full and complete information.

"They found further from their investigations that in the telephone situation, while among its different elements it had many companies that had fully completed their equipment and were on a paying basis, that there were others that needed material assistance. They also found that so far as the personal affairs of the members of the syndicate were concerned that their equities were, in their opinion, largely in excess of their liabilities and that in their judgment all of the personal creditors could be paid without doubt from the assets and several hundred thousand dollars put into the completing of the properties.

"They found that there was in Cleveland and upwards of thirty banks that were their creditors and that these banks held the choices of the sureties and the most equities.

"Messrs. Everett and Moore stated that they were perfectly willing to turn all of their matters and properties over to a committee that should be appointed to handle them, to preserve the most equities with the belief that when their properties were developed and creditors paid there will be a substantial amount to return to them. The personnel of the committee is as follows: R. R. Newcomb, Myron T. Herrick, J. J. Sullivan, Calvary Morris, Kauffman Hays and E. G. Tillotson and W. C. Mather. These gentlemen were selected, not especially on account of any interest directly involved, but because of their well known ability and integrity."

## HUNDREDS OF FAMILIES CAMPED OUT AT NIGHT

CHATTANOOGA, Tenn., Jan. 2.—A hundred families living in the flats and lowlands around Chattanooga camped on the knolls last night as a result of the high water. Suburban street car traffic is crippled and many houses are submerged. A trip containing Robert Pritchard, Colonel W. F. Henderson, H. H. Mastlock of Athens, Tenn., and Hon. Gordon Lee of Georgia, while returning last night from the New Year's meeting of the Chattanooga Hunting Club, went into a washout near East Lake and was overturned. Colonel Henderson had two ribs broken, and the others were slightly injured.

Twenty-seven miles of track are under water on the Western and Atlantic Railroad. Chattanooga is almost surrounded by water. At noon today the river had fallen two inches. Most of the damage has been due to backwater.

# AN UNKNOWN MAN BURNED AT SAN JOSE

SAN JOSE, Cal., Jan. 2.—The half burned body of an unknown man was discovered near the brick kiln half way between San Jose and Campbell this morning by a section hand of the Narrow Gauge Railroad. It was found in a pile of railroad ties which were in flames. The belief is that a murder has been committed, and the Sheriff and the Coroner are now on the scene. An investigation showed that the tramp was seen last night sleeping in the ties close to a small fire. The officers now think death was due to an accident or suicide. The body was charred beyond recognition. One cartridge had been discharged in the ordinary way, the others had exploded from the heat. In the ashes were found a number of melted bullets and brass cartridges, a pocket knife and a pair of scissors. The tramp was a short, dark man, with a sandy beard.

## COLORED PEOPLE GIVE THANKS.

A Large Meeting is Held in the African Church.

There was a large gathering of colored people at the Afro-Methodist Episcopal Church last evening, the occasion being the thirty-ninth anniversary of the Emancipation Proclamation. The following resolutions were adopted:

"Be it by the colored citizens of Alameda county, California, in mass meeting assembled, on this the last day of January, 1902:

"Resolved, First, that we here and now recall with emotions of profoundest gratitude and thanksgiving the Emancipation of Emancipation issued by Abraham Lincoln, which became effective thirty-eight years ago today, and by which four millions of our race, freed from the galling chains of slavery, stepped at once from its degradation and gloom into the full, broad sunlight of freedom.

"Second, that we enshrine anew in our minds and hearts the reverent memory of Abraham Lincoln, the Emancipator, who gave his life a martyr to his country and to freedom.

"Third, that we here consecrate ourselves, all we are and all we hope to be, to our country, which he made wholly free; and for us and ours, in the words with which he closed his immortal Gettysburg address, 'hereby highly resolve that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people and for the people shall not perish from the earth.'

The exercises of the evening were conducted under the auspices of the Afro-American League of Alameda county, and because of the able manner in which they were arranged special mention should be made of the following committee: A. J. Wells, J. E. Hall, H. S. Jacobs, Walter Graden, J. B. Wilson and R. W. Moore.

The exercises opened with an overture by an orchestra of several instruments. Mrs. C. D. Cole being the leader. A prayer was offered by C. E. F. Moore, pastor of the Cooper A. M. Zion Church, after which a few introductory remarks were made by the president of the League, Dr. A. J. Wells, to the American flag, as given by J. T. Summers, called forth much applause.

## THE STORY OF THE WISH BONE.

From time immemorial people have been interested in that pretty little fallacy called wishing. All kinds of pretty ideas have been woven around the "wish." Everybody in Christendom knows the sentiment regarding a wishbone, which is to the effect that if two people break a wishbone the one who gets the longer piece is to have his wish gratified.

This idea is, of course, trivial, though interesting, but when the granting of wishes takes a material form, then the desire of the human heart comes very nearly being satisfied. There is a vast difference between wishing for a sweetheart and wishing that you can get half a dozen up-to-date shirts for the price of three. Yet this apparent bridge is no greater than the opportunity that is now offered by the A. S. Cohn Co. to obtain high grade goods at prices that would cause a doubt if it were not for the fact that the goods are all of standard make.

Take these of this paper you will see a big wishbone. Around it is gathered the means to gratify every reasonable wish in the way of dress that a gentleman can desire. No man wishes to get a \$20 suit for less than \$17.50, and the most sanguine of wishers would hardly dare suggest to himself that he wished for a \$25 overcoat for \$18.50. Yet these are the nature of the very wishes that will be gratified at the great Wish Sale of the A. S. Cohn Co. which opens on Saturday morning.

In California people use underwear of much the same weight all the year around; therefore it is as sensible to take advantage of a phenomenal underwear sale in January as in June. There are half a dozen splendid makes of underwear, such as the Wright, the Medico, Morgan and similar brands, which are sold at figures that never vary. These are an out from one-third to one-half, which is about as good a bargain as anybody could wish for.

And the same is true of the remarkable offers in standard makes of shirts, neckwear, handkerchiefs, handkerchiefs, gloves, umbrellas, hosiery, sweaters and any other garments that contribute to the comfort or dignity of a gentleman's dress.

## HAD A NARROW ESCAPE.

H. W. Lee of 670 Clay street, while riding an unruly charger, collided with a Southern Pacific freight train at Seventh and Pine streets yesterday afternoon. His injuries were treated at the Receiving Hospital where surgeons found that he had escaped with slight wounds. The horse was injured so badly that it was necessary to kill it.

## HE WAS BADLY BEATEN.

Frank Smith, a butcher, residing at the Sevey House, called at the Receiving Hospital yesterday afternoon and had a broken nose and other injuries treated. He said he had been held up and beaten by four men at 4 o'clock in the morning. He did not know whether he had lost anything or not.

## A CRIME WAS COMMITTED.

The identity of the doctors or doctor who performed the operation was not established.

## DIVORCED AND MARRIED.

## POLICE CAPTAIN IS ARRESTED.

SAN JOSE, Cal., Dec. 31.—This afternoon Franklin Hichborn, a local newspaperman, swore to a complaint charging Perry H. Newberry, Captain of Police, with criminal libel. The allegations are that Newberry made a report to the Mayor which falsely stated that Hichborn was the author of a scathing article concerning politics in San Jose which appeared in the Los Angeles Times last September. Newberry claims that he obtained his information from General Otis and Mr. Andrews, the Times City Editor. These gentlemen have written letters which deny denying that they made any such statements. The affair has created quite a stir in political circles.

## SHE DIED OF LOCKJAW.

CAYUCOS, Cal., Dec. 31.—Lidia Ravenna died last night of lockjaw at her home on Cotton Tail Creek six miles from here. She had been having convulsions for two days before a physician was called, her parents being ignorant of the serious nature of her illness. Lockjaw resulted from running splinters into her foot about two weeks ago. The wound had healed and was quite forgotten until the attending physician made his diagnosis.

### A CRIMINAL PRACTICE.

The numerous casualties including some fatalities—attending the opening of the New Year calls renewed attention to the danger of carelessly handling firearms. It seems impossible to make some men understand the criminal folly of shooting around in crowded streets and pointing guns at people. Where the teachings of common sense find no lodgment, wholesome punishment would, at least, have a deterrent effect. The proper place for the idiot who points a gun at people "in fun" is the jail.

But parents are themselves to blame somewhat for the accidents which occur among children as the result of promiscuous shooting. They do not teach their children to be careful nor impress upon their minds the sacredness of human life. After one sees small boys handling firearms with such indifference, it is not surprising that at least, if they had reached years of mature understanding, they would come to realize a family because someone has been allowed to use the silly tricks of other boys. Such deplorable tragedies as occurred the preventive thing, and would be so much less frequently if parents would only train their children more carefully.

Just as everything has reached a stage in the early construction of the Panama Canal, the Panama Company is now in the scene with the price on the finished ditch marked down to \$100,000,000. It is alleged that the Panama company would now be willing to take \$100,000,000 instead of the \$100,000,000 they have heretofore asked. Whether they would really accept this sum is a question. Possibly the suggestion is thrown out to prevent Congress from passing the Nicaragua Canal bill. At least it will give the Panama Canal lobby a good handle to work on and it will probably be used for all it is worth at the present session by the agents of the transcontinental railroads, who do not care about either the Nicaragua or Panama prospect, but are simply trying to prevent the construction of any canal at all.

Matters in Venezuela are clearing up for the United States. Recently Germany is proceeding under a good understanding with our government, and with intent to respect the Monroe Doctrine. It is satisfactory to know that the cordial relations between the United States and Germany are not to be disturbed. As for Venezuela she has herself only to blame for her troubles. If she persists in brooding faith and violating her obligations the United States cannot afford to stand between her and chastisement.

One of the good resolutions which should be made on New Year's Day is a pledge not to "sneer off" this or that with great formality and emphasis and then break the vow. Such oaths are like boys' vows—are made only to be broken, and are generally a silly manifestation of personal weakness and lack of self-confidence.

It is a matter of trifling import but a good sign nevertheless that William Jennings Bryan should have sworn off running for President. Now if he will quit making speeches all will be forgiven.

The Anti-Imperialistic League of Boston seems to have forgotten to send the compliments of the season to that illustrious patriot Aguinaldo. Why this neglect?

### HENRY DERNHAM IS BANQUETED.

Henry Dernham, treasurer of the Big game, San Francisco, renowned business man, was banqueted in an evening this week by the chiefs of the respective departments of that venerable tribe. Mr. Dernham is a foremost member of that giant commercial concern. The banquet was held at the Pacific Dog Restaurant. Covers were spread for a party of forty at the round table in the big banquet hall, which was resplendent with cut flowers and holly. Messrs. Andrew M. Davis and William Kaufman were special guests of the occasion.

The menu was as follows:  
Blue points on shell, sauce mignonette. Soup—Clear green turtle. Relishes—Caviar, anchovies on toast, celery, salted almonds. Fish—Stripped bass, sauce Hollandaise; new potatoes. Roast—Pile of beef, a la Rothschild. Entrees—Chicken saute, a la Escaragon. Vegetables—Fried mountain oysters, French peas, Roast punch. Dessert—Fried duck, fried hominy, lettuce salad, French Farfalle au gratin, assorted cakes, cheese, fruit, coffee.

The toastmaster was Henry M. Davis, whose remarks were most felicitous. Replies were made by Henry Dernham, and Messrs. Kaufman, Walsh, Pannam, Landsberger, Dunas, Mullany, Hink and others. These present as well as Mr. Dernham and the invited guests were the following gentlemen, heads of the different departments of the Empire Club: A. H. Martin, W. E. Joslin, F. Hink, Dormer Walsh, Fred Clarke, I. Lewis, H. Guggenheim, D. Sheehan, H. W. Friedlander, L. Lipman, George C. Foster, J. P. Field, P. Landsberger, J. H. J. Mayers, J. Miller, W. A. Dunas, T. ### LITTLE ARTISTS AT THE MACDONOUGH.

No more tuneful or melodious opera than "The Geisha" was ever written. It is a series of lyric songs.

The great Julliard Australian Juvenile Company will sing this London and New York success at the Macdonough Theatre this evening and a crowded house is a certainty.

The costumes to be worn by the talented young artists tonight were bought in the Japanese land while the company was touring that cherry-blossom realm. They are superb, and the production to be given tonight will show this coterie of youthful stars at their best.

"The Geisha" is an opera which shows the inner life of the pretty Japanese girl as she grows up in the tea house of her native land. People unacquainted with Japanese customs can find much in sight into the dreamy and pleasant existence of the geisha maid by witnessing the performance at the Macdonough this evening.

The Julliard Society will also be given over to a special matinee performance of the multi-act "The Geisha."

The production this evening will surpass all of the other productions of the Julliard Society in the city. It is a masterpiece of the Japanese national institution. To miss it is to overlook an evening's enjoyment.

### ASKS FOR DAMAGES ON A CROSS-COMPLAINT.

Samuel Jacobs has filed an answer to the complaint of Barney Alexander charging him with battery, in which he denies all allegations of plaintiff. He also filed a cross-complaint, in which he alleges that on December 17, 1901, Alexander used violent and abusive language against the defendant and his family in the presence of a crowd, for which Jacobs prays judgment for damages to the amount of \$250.

Matters in Venezuela are clearing up for the United States. Recently Germany is proceeding under a good understanding with our government, and with intent to respect the Monroe Doctrine. It is satisfactory to know that the cordial relations between the United States and Germany are not to be disturbed. As for Venezuela she has herself only to blame for her troubles. If she persists in brooding faith and violating her obligations the United States cannot afford to stand between her and chastisement.

### LARGE VESSEL WILL BE BUILT.

Great Ocean Oil Carrier to Be Erected on Water Front.

A force of 200 men will soon be at work at the Hay & Wright ship-yards, building the largest four masted barkentine ever constructed on the Pacific Coast.

The new craft will be 260 feet long, 42 feet in breadth and 21 feet deep. She will be a hug oil-tank windjammer and will have a carrying capacity of 15,000 barrels, which is considerably more than half a million gallons.

The Union Oil Company of California will own the great vessel which will carry cargoes of California crude oil to the great sugar refineries in the Hawaiian Islands. The company named, at first thought of building a steamship, but the ever present danger of fire from a highly inflammable cargo caused a reconsideration of plans, which resulted in the adoption of a carrier moved by wind only.

The hold of the vessel will be made up of ten large bulkheads, with separate hatches, to the end that oil of all kinds or qualities may be carried at will. A complete electrical plant, with stored power, will furnish energy for the propulsion of the heavy pumps used in loading or discharging a cargo, as it is the desideratum to reduce the amount of fire on board to the necessary minimum of cookery heat alone.

The lumber and timbers, from which the vessel is to be built, are now in transit from Gray's Harbor, Washington, and will arrive at the yards in a few days, when the keel will be immediately laid and the vessel rushed to completion.

The launching, from present indications, will occur on July 4th next, and a doubly patriotic affair may be seen at the famous Athenian ship yard.

The shipping of crude oil to the refineries in the islands promises to become a great industry, as the coal used there at present is high in price and not over good in quality, and the substitution of the plentiful product of the refinery in the fuel expense accounts of the refineries in Kanaka land.

One interesting feature of the new ship will be the fact that she can be rendered unsinkable by the emptying of several bulkheads and the screwing of the bulkhead covers, thereby creating large air-tight compartments.

Marine experts, who have seen the plans of the new barkentine, give it as their opinion that the construction of this gigantic carrier marks an era in Western ship building.

### SPECIAL EDITION OF THE CHRONICLE.

The New Year edition of the Chronicle was a splendid publication. It was handsomely illustrated and contained a large amount of high grade literary matter, besides a vast quantity of valuable statistical matter, mainly relating to the growth, productions and industries of the Pacific Coast and especially of California. It was a splendid advertisement of the resources of this State and should be read extensively all over the Eastern States. This edition of the Chronicle illustrates how much the high class modern newspaper gives for a little money. In addition to news of the day, and enough carefully collected and current statistical information to fill a considerable space, the paper contained as much standard literature as one of the leading magazines of the country. It was a triumph of skill and enterprise.

### OLD VETERANS TO HOLD A POLITICAL MEETING.

A regular meeting of Oakland Camp No. 3, Army and Navy Republican League, will be held in Becker's Hall at 7:30 o'clock Saturday evening, January 4.

There will be an election of officers to serve for the coming year. As there is to be a State election this year, the election of camp officers is an important matter, and the veterans are already "doing politics" and a large attendance is expected. There are many questions involving the rights of the old soldiers and sailors, which have never been satisfactorily settled, and the "boys" are anxious to take an active interest this year and endeavor to prevent the nomination of any one who is antagonistic to their interests.

The opinion seems to be quite general that M. D. Hyde, the retiring Colonel, will be succeeded by Dr. E. J. Leonard, the present major of the camp.

# A CALIFORNIA INVENTION TRIUMPHS IN NEW MEXICO

REMARKABLE RESULTS RECENTLY ACHIEVED IN SMELTING REFRACTORY ORES WITH A VULCAN FURNACE AT LORDSBURG—TESTIMONIAL OF MERIT.

The Vulcan furnace, the new smelting device patented by a San Francisco company, is winning new laurels every day. Its superior economy and efficiency are being more clearly demonstrated with each new test, and it bids fair to supplant all other methods in the near future. The company is constantly receiving new orders for furnaces, and each one erected so exceeds expectations that it receives the most flattering encomiums. The following letter is a flattering testimonial to the splendid results achieved by the Vulcan furnace in New Mexico: "Pacific Union Mining and Smelting Company, San Francisco Office, Room 45, 819 Market street.

"Lordsburg, N. M., Dec. 21, 1901.

"Vulcan Smelting & Refining Company, 306 Pine Street, San Francisco, Cal.—Gentlemen: We have just completed a very successful run in the fifty-ton furnace sold to us by your company on a mixed carbonate and sulphide ore, and turned out a 96 per cent copper bullion, carrying the gold and silver values, with a loss of less than three-fourths of one per cent of copper in the slag, which, as you are aware, is remarkably low in the smelting of carbonate ores. The furnace is all right—it's a wizard. We would have

## BOY SHOTS HIS LITTLE FRIEND.

Amos J. Walton is Shot and Killed by Lester Loveland.

Amos J. Walton, the twelve-year-old nephew of Miss Adeline E. Walton, of 1191 East Twenty-second street, principal of the Tompkins School, was shot with a 22-calibre rifle bullet yesterday afternoon by Lester Loveland, a 10-year-old companion, and died almost immediately of the wound.

The boys had been out hunting with another companion named Grover Jorgensen. They were returning home by the way of East Twenty-seventh street. Game had been scarce and according to the lad who fired the fatal shot he raised the gun to shoot at a tin can on a fence. Just before he pulled the trigger, he says, young Jorgensen foisted his arm and accidentally turned the gun on his young friend.

When the dead boy was shot, he exclaimed "I'm shot," twice, ran twenty feet, and then fell.

Grover Jorgensen tells a different story. He says that young Loveland asked the dead boy how he would like to be shot. Just as the young boy was laughingly said:

"I guess you are joking," the fire-arm was discharged and young Walton wounded.

Deputy Sheriff Taylor investigated the affair last night and decided he would not make any arrests, as the boy who did the shooting is too young and because the shooting had every appearance of being a joke.

Miss Walton believes the shooting to be accidental as the two boys were very close friends.

## CLEVER PROGRAM AT PECK'S BROADWAY THEATER.

The program at Peck's Broadway Theater for this week has a number of

Impairment of hearing robs one of many of the joys of life, exposes to danger, interferes with capacity for usefulness, limits ability to transact business and earn a living. Many annually abandon their plans, ambitions and hopes on account of loss of hearing.

In nearly every case of partial or complete deafness there is another feature that to many is more trouble, some the difficulty of hearing—the distracting head noises. These make such an impression on some as to almost drive them in sane. The everlasting buzzing, ringing, snoring, rumble or roar, distracts them by day and prevents rest at night.

Nine cases out of ten of head noises and progressive hardness of hearing are due to catarrh of the middle ear or of the tube leading from it to the throat.

It should be understood and constantly borne in mind that to restore the hearing and silence the distracting noises a treatment is required that will allay inflammation in the eustachian tubes, reduce the congestion and swelling and stop the secretion of mucus so that the tubes will be kept open for the free passage of air into the middle ear. No locally applied medicine will effectually do this, only a searching constitutional alternative and resolute will cure catarrh in the deep recesses of the head.

Two acquaintances of the writer were run down and killed by the cars in one year. Both had catarrh of the head, which had extended up the eustachian tubes, leading from the throat to the middle ear, and were quite hard of hearing. In both cases the coroner's jury decided that they came to their death because of inability to hear

new features which have not yet been presented at this place of amusement. The pictures of a moving character are intensely interesting, while the vaudeville sketches are artistic to the highest degree. Among the features is a slick wire act in which the performer walks with his lower limbs in baskets and juggles with fire and a number of other articles with as much ease as if he were standing upon a platform instead of simply upon a wire which is invisible.

## HER HUSBAND DIED ON A STEAMER IN THE SOUTH.

The petition of Catherine Snyder was filed today requesting that she be made administratrix of the estate left by her late husband, William J. Snyder, who died on board the steamer San Juan December 16, 1901, while en route to San Francisco from a South American port. At the time of his death he was a resident of Alameda County. His estate consists of money on deposit at the Hibernia Savings Bank of San Francisco and amounts to about \$1,800.

## QUEER CASE OF FORGERY IS BEING PROSECUTED.

The preliminary hearing of Abraham Robles, who, although he can neither read nor write, is charged with forgery, has been set for January 6 by Justice of the Peace Frowse of Hayward. Robles had a friend write another man's signature and then swore to his mark on the signature, which he claimed was his own.

## VISITING ATTORNEY DIES OF HEMORRHAGE.

# LARGE WEDDING OF MISS IRENE BAKER.

MRS. JOHN DE L. GRISSIM.

## POPULAR SOCIETY YOUNG LADY BECOMES THE BRIDE OF

DR. JOHN DE L. GRISSIM OF SAN JOSE.

The opening of the New Year yesterday, witnessed a number of happy events, but, among them, there was nothing more attractive and beautiful than the marriage ceremony in St. Paul's Episcopal Church which united, in the bonds of wedlock, Miss Irene Baker of this city and Dr. John de L. Grissim of San Jose.

The announcement of the engagement of this young couple was made several months ago. The announcement of the nuptials, therefore, brought to the church a throng of people, all of whom had learned to love the bride who had been among the most appreciated of the pretty young ladies of this city.

St. Paul's Church, for years, has been the shrine at which marriage vows of bride and groom in the most exclusive circles have been pledged and always under circumstances of the most gratifying nature.

But no father bride, no mother man ever walked the aisle of this historic church than the bride and the groom who there, yesterday, formed their alliance for life.

The auditorium was decorated for the occasion with a simplicity and taste peculiar to the principles in the ceremony. The body of the church was bright with green and white with here and there, a dainty touch of pink. The altar was showered with roses of white and sprays of green, and over the spot on which the final vows were spoken, hung a chime of marriage bells, three in number, in green and white, emblematic of both the season and the ceremony.

There was a novelty in the ceremony which was welcomed by the spectators. The bridemaids headed the procession. Instead of entering through the front door of the church, the bridal party made their appearance at the door on the left of the chancel and walked down the aisle on that side of the church. When they reached the cross aisle in the nave, they walked to the foot of the main aisle where they met the bride who appeared radiant and beautiful on the arm of her popular father, George W. Baker, the well known attorney.

There, also, were met the ushers, who preceded the bridal party up the aisle, namely Raymond T. Baker, brother of the bride; Roy Lieb, of San Jose; Samuel P. Hardy, of San Francisco; and Robert T. Syers of San Jose.

After the ushers came the bridesmaids, Miss Gertrude Allen, Miss Lida Lieb of San Jose; Miss Florence Hinch and Miss Bessie Palmer.

Then came the matron-of-honor, Mrs. Harry Lytle Baker, who was unattended. Little Earl Baker, a brother of the bride, followed, bearing a prayer-book which has been an heirloom in the family. This book was covered in white. It was from this book that the ceremony which united the father and mother of the bride was read and from them came the precious sovereign which has now become the cherished possession of the bride.

The bride and the father, George W. Baker, closed the bridal procession, which moved up the aisle while the

organ intoned the "Wedding March" from "Lohengrin."

When the chancel was reached, the wedding party parted and allowed the bride to take her position beside the groom, who made his appearance at the entrance to the chancel, attended by his best man, Dr. W. B. Stevens. The betrothal took place at the entrance to the chancel, the marriage ceremony being conducted within the railing, the impressive words of the ritual being read from the white prayer book, borne by the bride's brother, Earl Baker, which was tendered to the officiating clergyman for the purpose.

The reading of the words of the formula was done in a most impressive manner by Rev. Robert Ritchie, and meanwhile the organ, pianissimo and with tremulous movement, murmured a romance.

The bridemaids were gowned alike in pink crepe de chine, made with full pleated skirts and unlined yokes of white lace. With these dainty costumes were worn large picture hats of pink tulle with long plumes of the same color and muffs also of pink tulle.

The matron of honor, Mrs. Harry Lytle Baker, was attired in a gown of white lace over pink tulle and wore a picture hat of white tulle with a pink plume.

The bride was simply beautiful. Her gown was an elegant robe of heavy white satin, the skirt having a very long train and being perfectly plain. The bodice had a lace yoke, outlined with a draped effect in duchesse lace. The only jewel worn was a diamond and pearl crescent, the gift of the groom. The tulle veil was quite long and was held in place with orange blossoms. The shower bouquet was of lilies of the valley.

Mrs. George W. Baker, the bride's mother, wore a gown of silver gray broadcloth, with which was worn a large black hat.

Mrs. Paul Purst of San Jose, a sister of the groom, wore a gray gown, applied in white satin velvet.

Mrs. S. P. Lieb of San Jose wore a brown silk gown with trimmings of pink and blue applique.

Before leaving her home, the bride threw her bouquet, and the tulle-trimmed missile was caught by Miss Gertrude Allen, one of the bridesmaids.

Mrs. and Mrs. Grissim took the evening train for the south, where they will spend their honeymoon.

The home of Mr. and Mrs. Grissim will be in San Jose, where the groom is a well known and prosperous physician. The bride was the recipient of the largest and richest collection of wedding gifts ever seen in this city.

# GREAT FLEET IN OAKLAND HARBOR

Vessels That Ply in the North Spending the Winter Here.

The Alaska Packers' Association is spending thousands of dollars repairing their big fleet of vessels now lying in winter quarters in Oakland harbor. The large full-rigged iron ship, Star of Russia, recently purchased by the Association at a cost of \$70,000, is being completely overhauled and a force of carpenters and calkers are building a new maindeck, deck houses and galley on board of this, the best vessel in the Association's service.

Another of the great packing company's vessels, the steamer President, is having an entirely new extra upper deck built on her, as she will carry a large gang of carpenters to Behring Sea as soon as the ice breaks up there this spring. The carpenters will erect new canneries near the Behring Straits, as the Association has prepared plans for their construction.

The most valuable steamer belonging to the Association is the Kvichuk, now lying with the fleet here. She is an interesting vessel in appearance, being of the long, rakish sort of vessels spoken of in sea novels and also having a heavy water-line bulwark the full length to protect her sides from damage by collision with ice floes.

One of the Association's ships, the Santa Clara, the only one of the fleet not here, is now on the rocks of Trinidad Island, near Victoria, British Columbia. She recently left Oakland for Oyster Bay to load coal for the steamers here and her fate is being anxiously awaited by the many seamen in the harbor.

The other vessels of the Packers' Association now lying in Oakland harbor awaiting the return of warm weather in North Pacific waters are the ships St. Nicholas, Tacoma, Indiana, Nicholas, Corcoran, Centennial, Isana, Reed, Bohemia, the barque Coulinga, B. P. Cheney and the schooners Prosper, Premier, Chiklat, Jennie, Thistle, All-tale and Kadak.

How soon the large fleet named will leave their berth in the soft mud and the shores of their Alaskan winter haven will depend entirely on whether the ice in the north melts early or late this spring.

Taken all in all, the fleet is the largest thing of its kind in the world, and it is a great showing for the safety of Oakland harbor as a winter home for ships.

## A GREAT SUCCESS IN THE SHOE BUSINESS.

Has Been Made in Oakland by J. Simon of the Trustee Shoe Store.

The year 1901 was a most prosperous one at this growing establishment, and Mr. Simon finds himself obliged to enlarge his shoe store, in order to accommodate the steadily increasing business. Thorough honesty and square dealing the Trustee Shoe Store has built up a wonderful trade and the big bargains offered have kept the store crowded with shoe-buyers. It shows what honest dealing will do and evidences the fact that the people of Alameda appreciate square dealing and low prices. The greatly increased stock, carefully chosen goods, improved service and tempting prices tell why the store grows. Anything purchased there must be right; if it is not they will make it so. He would rather sell to one customer ten times than to ten customers once, and only awaits an opportunity to prove it. Mr. Simon has made it a rule never to misrepresent an article to a customer, but at all times and under all circumstances to give value received for the money. This is the keynote to his success in the Trustee Shoe Store, 962 Washington street.
